

About IPOS International

IPOS International is a wholly owned subsidiary of the Intellectual Property Office of Singapore (IPOS), housing over 100 IP experts in areas such as IP strategy and management, patent search and analysis, and IP education and training. We work closely with public and private enterprises across the world to support them through their innovation journey.

As the expertise and enterprise engagement arm of IPOS, our focus is on helping enterprises and industries use IP and intangible assets for business growth. Through our expertise, partnerships, and networks in the innovation ecosystem worldwide, we bridge possibilities for intangible asset-rich enterprises and industries seeking to grow.

Let's build that bridge.

How do you build a bridge with invisible bricks?

Holistic solutions tailored to your business needs.

At IPOS International, we believe that the true value of your intangible assets (IA) lies in your ability to leverage them. We see intellectual property (IP) and IA as bricks to building a solid foundation that will empower you to pave over obstacles, support your business strategies, and connect you to a multitude of opportunities.

Wherever you are on your business journey, we'll pave the way for your IP and IA to take you further.

Get actionable insights.

Discover practical tips to protect and leverage your IP and IA via our wealth of resources online. From business guides to patent analytics reports, our insights will help you identify and unlock the potential of your most valuable assets.

Accelerate business growth.

Develop a strong competitive edge to fuel growth and expansion opportunities through an IA strategy aligned with business goals. Take stock of your IP and map out your IA portfolio by identifying and strategically managing your key drivers of business value. Our IP Strategists will partner you to create a framework that best maximises the value of your assets through commercialisation, licensing and more.

Sharpen your perspectives.

Draw on our patent search and analysis capabilities to discover business opportunities, technology white spaces, competitive intelligence, and industry trends. Our multi-cultural and multi-lingual capabilities will also help you harness data and insights across Western and Asian contexts. We turn big data into actionable insights that bolster R&D and business decisions.

Build your capabilities.

Develop critical IP and IA management capabilities within your business through our various executive courses. Our Specialist Certificate in Intangible Asset Management will fortify these competencies. Let your people take your business to the next level with the Master of IP and Innovation Management programme.

Tap on our networks.

Access our diverse partner networks across local and global innovation ecosystems to reach a wider audience, markets and range of solutions to accelerate your growth.

Chart new directions.

Venture abroad with your business through holistic, customised IA strategies and frameworks designed to make an impact in global markets. Move the needle with our IP Strategists who are tuned in to worldwide industry trends and technology landscapes.

Let's build that bridge.
